Important Message from the Owner

If you haven't taken a closer look at the Asset Care from A+ rated One America, then you owe it to yourself, your practice & most importantly your clients, by calling me & learning more about this amazing product.

With all financial products, the future will determine what the best course of action was, which is impossible to know. The Asset Care is so perfect because it protects your client & their families over several potential outcomes in the future.

Advances in medical technologies means that more & more people are not succumbing to their diseases, ailments & afflictions, but living out their lives longer & longer, all the while needing care.

Less than 3% of Americans over 18 have LTC. 10,000 people turn 65 everyday with 70% of them needing LTC in the future, yet less than 10% of Americans over 65 have LTC & more than half those people don't even have enough coverage.

Of all the clients you sell this great product to, some will just use the death benefit, some will use the cash value & some will use the Long Term Care benefits. But ALL of them will be grateful they bought this product!

I can guarantee you 2 things – No one will ever regret buying this policy & for those of your clients that end up having a lengthy LTC claim, their families will be forever thankful you helped their loved ones!

Plus all your clients will gain financial stability with this product & some of them may see an enormous financial return. If your client ends up with a lengthy LTC claim they can see over 1000% to 2000% returns on their investment if not more!

In my 15 years of assisting of advisors all over the country with a stable & ethical plan for their client's retirement, income & future, I have never been so excited about a single opportunity – call me today so I can help you secure & protect your client's future. As advisor awareness grows the opportunity for you slows, so call me NOW!!
